- 600 x 800 mm x sheet thickness 1,5-2 mm
- 700 x 1600 mm x sheet thickness 1,5-2 mm
- 1000 x 700 mm x sheet thickness 1,5-2 mm
- 1000 x 1000 mm x sheet thickness 1,5-2 mm
- 1000 x 1500 mm x sheet thickness 1,5-2 mm
- 2000 x 1000 mm x sheet thickness 1,5-2 mm

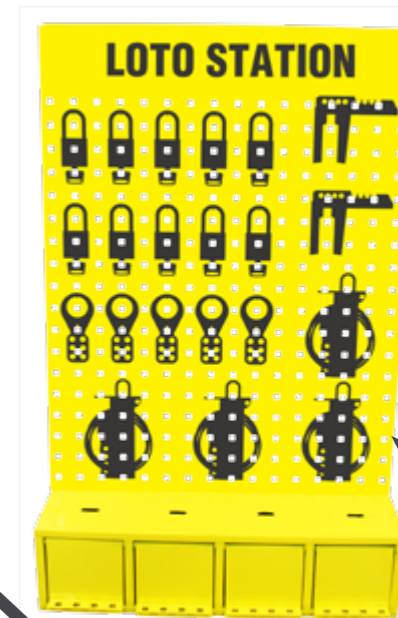

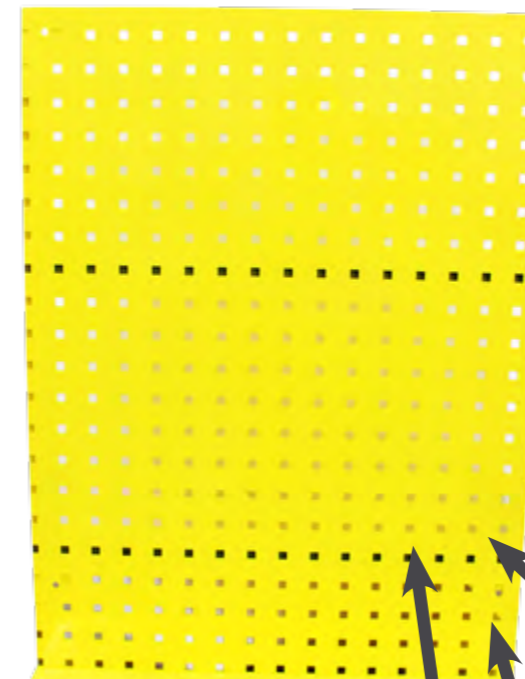

Perforated board are made of 1.5 or 2 mm galvanized sheets which are powder coated. They allow for the placement of tools, production equipment or LOTO system components in an organised and preplanned way. These type of boards are also ideal as 5S cleaning stations.

Perforated boards can be adapted so that they can be mounted on a table top or mounted in standing structures with or without wheels. Perforated boards can be additionally equipped with dry-erase boards, pockets and holders for documents or tags.

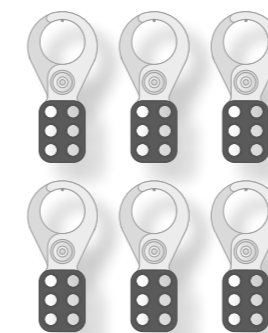

COLOURS OF BOARDS  
(POWDER PAINTING)

You can attach lock boxes and or tool boxes which are also part of our offer to these boards.

Self-adhesive labels used as shadows on these perforated boards can be of any colour.

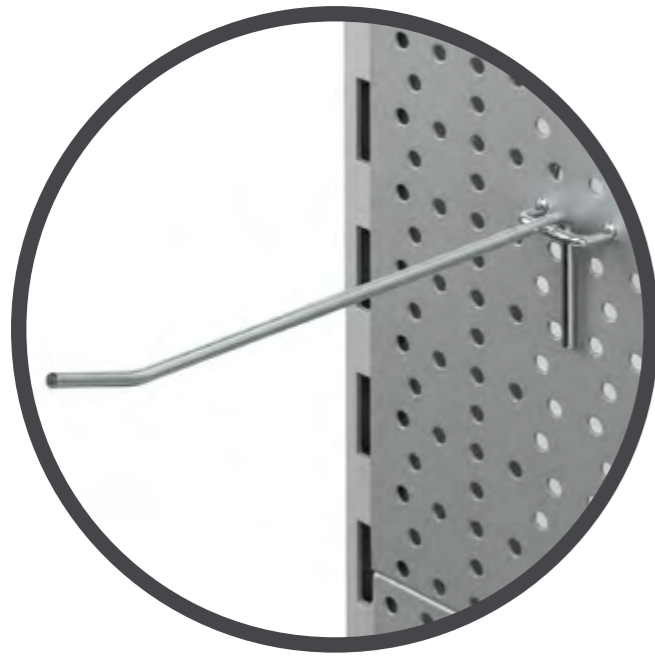

Self-adhesive labels used as shadows on these perforated boards can be of any colour. As preferred we can stick the shadows to the boards before shipping or prepare a set of do-it-yourself self-adhesive label set.
